### Features:

- ❖ This product is designed to be compatible with Mars Air Systems models. See table for model selection chart.
- ❖ Standard color for LPV2/LPN2 and STD2/N2 is Obsidian Black (OB) – for all other series, standard color is Titanium Silver (TS).
- ❖ Up to 2 air curtains can be stacked on each other for taller entranceways. Center mounting brackets are factory installed for WM and BD series for easy installation.
- ❖ Vertical air curtains can be installed on both sides of wider entranceways for adequate protection.
- ❖ Vertical stand-off pedestal is factory-provided and shipped loose for right or left side field installation.
- ❖ Safety steel mesh factory installed at nozzle to avoid accidental contact at discharge.
- ❖ For WM and BD series, modified intake screen with additional, offset expanded metal factory is installed to prevent accidental contact.
- ❖ For BD series, additional brackets for wheels and bearing locks are factory-installed.
- ❖ Same end connection standard for Steam/Hot water heated models. Custom coil design offered for other configurations.
- ❖ Proudly Made in the USA
- ❖ 1 year parts warranty

### Options and Accessories:

- ❖ B0042, Adjustable mounting bracket set
- ❖ B0105, Side vinyl baffle kit
- ❖ HSG-\*\*, Custom colors available (\*\* = OB (Obsidian Black), TS (Titanium Silver), PW (Pearl White))
- ❖ Unit mounted control panel option available
- ❖ Custom coil design offered for other configurations. Specify orientation, call factory.
- ❖ Optional air diffusers available for vertical mounted air curtains
- ❖ Not applicable for following Electric Heated applications:
  - STD2 with 16kW per Motor (for 208-230V/3Ø)
  - WM or BD
  - Heat on Demand mode operation
