* - Use corresponding letters for HP codes, Type of Heat then Voltage Code.

**Note:** Panel dims shown are estimates and based on standard configurations. Sizes may change based on availability and optional accessories selected.

---

**Features:**

- Specifically designed to be used for the Mars Air Curtains
- ETL Certified to conform to UL 508A and CSA 22.2
- Enclosures are rated for NEMA 1 applications
- Panel constructed of a gray painted heavy gauge steel, hinged with a quarter turn latch (Polycarbonate enclosure may be used as a substitute)
- Hands-Off-Automatic (HOA) standard and mounted on the door
- Unit rated motor contactors and overloads/motor protectors
- Step-down transformer used for the 120V secondary control (50-75VA) Hot Water and Steam units utilize a larger transformer(250VA) in order to power the solenoid valve
- Control fuses and equipment grounding
- Terminal strips for input power and motor connections provided
- 1 year parts warranty

**Options and Accessories:**

- NEMA 4X or NEMA 7 or 9 enclosure with HOA
- Custom enclosure colors and finishes (304SS, 316SS, Aluminum)
- Non-fused and Fused Disconnects (Specify remote or panel mounted)
- Adjustable Time Delay (1 sec to 100 hours) (Specify alternate delay length)
- 2 or 3 speed control (Not available for all models) (Specify remote or panel mounted)
- Keyed quarter turn latch
- Keyed HOA switch (Panel mounted)
- Factory mounted panels (Specify panel location)
- Special voltages and 50 Hz available (Contact factory)
- Special control voltage (24V) available (Contact factory)
- Panel can be built to operate with external VFD (Require MCP-VR accessory adder)
- BMS Monitor and Control
  - Dry contact provided in panel for monitoring Motor and Heat
  - 24VAC signal provided from panel for controlling Motor and Heat (BMS to have dry contact rated for 24VAC for BMS control)

**Heating Code: U**
**Hot Water or Steam Code: V**

**Voltage Code:**
- 115-1-60: A
- 208/230-1-60: D
- 208/230-3-60: G
- 460-3-60: H
- 575-3-60: I
