Brackets

All Unheated, Electric, Hot Water and Steam Heated Series
(Excludes the WM and BD series and all Gas Fired Models)

Extended Offset Mounting Brackets
- Designed to clear larger obstructions above the opening or mounting location
- Typically used for drum type doors and large pipes for water or ventilation (see pic 1)
- Set included 3 ½” Offset Mounting Bracket as standard
- Compatible with optional 4”, 7” or 10” Offset Mounting Brackets and Side Extension Plate
- Available with 10”, 16”, 19” or 23” clearances
- Standard color is Obsidian Black

Combination Side Extension Plates
- Designed to clear small obstructions on the ends of the opening or mounting location (see pic 3)
- Typically used to clear door tracks, small pipes and conduit on the edges of the opening
- Commonly used in conjunction with the Offset Mounting Bracket (see pic 4)
- Available with 4”, 6”, 8”, or 10” clearances
- Standard color is Titanium Silver

Top Mounting Brackets
- Designed for overhead mounting above the opening
- Typically used for glass doors or large transoms (see pic 5)
- May be used in conjunction with the Adjustable Mounting Bracket or Side Extension Plates (see pic 2)
- Standard color is Obsidian Black

Transom Mounting Brackets
- Designed for transom mounting to the framed transoms above the opening
- Typically used for commercial applications, such as office and retail spaces (see pic 6)
- Not recommended for HV2 and EP2 units due to door frame weight capacity limitations
- Standard color is Obsidian Black

Note: All three types of brackets may be used together for the same installation (see on the right)

Options and Accessories:
- Custom colors and finishes (304SS & 316SS)
