The most cost-effective environmental & sanitation barrier you'll **never** see

High performance units for heavy industrial use.
Heat options, including gas and steam/hot water are available.
Direct Drive unit

Windstopping Series industrial air curtains

WINDSTOPPING SERIES INNOVATIONS

- Direct drive industrial units
- Durable metal construction w/powder coated finish
- Low maintenance and operational costs
- Heating Options – Hot Water, Steam, and Indirect Gas Fired
- Contributes to LEED points
- Standard Color – Titanium Silver
(Special Colors – Obsidian Black/Pearl White/Stls Steel - \$\$ adder)

FEATURES IN ALL MARS AIR CURTAINS

- Maintains consistent interior temperature
- Minimizes dirt, dust, and fumes
- Controls flying insects
- Allows for unobstructed views...enhancing safety
- Effective environmental control
- Reduced energy consumption

VALUE ADDED ACCESSORIES

- Switch
- Control Packages
- Control Panels
- Brackets
- Filters
- Colors & Finishes

All accessories have been specifically designed to enhance installation, operations, and performance.

They have been tested and are compatible to work with the appropriate Mars units to ensure that efficiency standards and performance levels are met.

For a comprehensive list of the most commonly specified accessories, please download our full accessory brochure at: marsair.com/accessories

ADDITIONAL INFORMATION
