Recommended Accessories

- "C" only applies to single units up to 72" units. Dims are not applicable for units 84" and longer.
- Use corresponding letters in "Voltage Code" then "Wattage Code" columns to complete the model number.

Notes:
1. This product is designed to meet the National Electric Code (NEC) and is ETL listed for the US and Canada (UL 2021 and CSA 22.2).
2. 1/4" mounting holes provided for wall mounting (4) and overhead mounting (4), (2) on each end.
3. All units have a self contained one piece cabinet up to 72", fire retardant and corrosion proof paint lock metal double protected with baked on Obsidian Black color, rust preventative electrostatic polyurethane powder coating.
4. Cabinet has sufficient strength for fastening to wall on both ends without intermediate support. Units greater than 72" are double units joined with a 2" mounting bracket located in the center and must be center supported.
5. Unit is to be installed such that air flow is unobstructed. Unit has a 3" air discharge nozzle containing adjustable air directional vanes with 40° sweep front to back.
6. Mounted adjustable speed controller knob allows air velocity to meet a wide range of field conditions. Units greater than 72", the speed controller and heater on/off toggle controls will be located on the right hand unit and controls both units.
7. Control panel is pre-wired and pre-mounted inside the cabinet. Units greater than 72" require dual power supplies, one for each section. Optional remote mounted available.
8. Wall mounted thermostat is shipped loose and field installed.
9. Circuit protection is per NEC by others.
10. Optional door limit switch and mounting brackets are field installed and/or wired by others. The door limit switch is to be mounted such that the air curtain turns on as door begins to open. To prevent unit damage, the mounting brackets must be installed such that the bottom of the air curtain is not below the door header.
### Electric Heated Data Sheet

#### Applications: Environmental Separation (up to 8')

| **Note:** Use corresponding letters in "Electrical Data" & "Heater Wattage Data" columns to complete the model numbers.

#### Features:
- 1/6 HP continuous duty motors
- Sleek self-contained one piece light gauge corrosion resistant paint lock metal design
- ETL Certified to conform to UL 2021 (US) and CSA 22.2 (Canada) Standards
- Dynamically balanced corrosion resistant aluminum crossflow wheels
- Very low profile design, 8" (H) x 8 7/8" (D)
- Variable speed controller
- Wall mounting bracket removable for easy installation
- 1/4" mounting holes provided for wall mounting (4) and overhead mounting (4), 2 on each end
- Cabinet has sufficient strength for fastening to wall on both ends without intermediate support up to 72". (Models 84" to 144" require intermediate support in field)
- Adjustable air directional vane with 40° sweep front to back
- Standard color is Obsidian Black
- Rust preventative electrostatic polyurethane powder coating
- 18 months parts warranty
- Freight Included (FOB Continental USA)
- Proudly Made in the USA

#### Electric Heater Coil and Wiring
- Coils are an open type for rapid temperature rise to be located in the air curtain's intake directly in the air stream
- Manual reset thermal overload protection provided
- Controls internally mounted, prewired ready for power connection and accessible through the intake or top access panels
- 3/4" knockouts are provided on the top and ends
- A heat/off/fan switch is unit mounted at the bottom
- A remote mounted thermostat is included (field wired and installed by others)

#### Options and Accessories: (see Accessories Brochure)
- SimpleLink Controller
- Adjustable time delay (1 sec to 17 min)
- Remote mounted fused or non-fused disconnects
- Heat on Demand
- Master + Slave Control Kit
- Wall and Overhead Bracket
- Custom colors and finishes (304SS, 316SS)
- Vertical mounting kit
- 1/4" Aluminum Mesh Filters
  - Need additional filter section to operate. Overall depth will be 17 ½" (208/230, 3PH, 9.5 kW and above for all sizes)
  - Not applicable for LPV2 with SimpleLink Controller

- Use corresponding letters in "Voltage Code and Wattage Code" to complete the model numbers.
- Motor amps per motor: 2.4A @ 115v; 1.2A @ 208/230v/1Ø.
- For Ampacity Multiply FLA X 1.25

### Sound Levels: (measured at 10' in an open field)

### Example

- LPV2 72 - 1 E H G - OB
