Electric Heated Drawing

WMH
(Wind Stopping 16)
Series

1. This product is designed to meet the National Electric Code (NEC) and is CSA Listed.
2. (4) 5/8" mounting holes provided on for overhead mounting provided, (2) on each end.
3. All units have a self-contained one piece cabinet, fire retardant and corrosion proof paint, lock metal double protected with baked on Titanium Silver color, rust preventative electrostatic polyurethane powder coating.
4. Cabinet is to be mounted from overhead and has sufficient strength for suspension from both ends without intermediate support.
5. Unit is to be installed such that air flow is unobstructed. Unit has a 4-1/2" air discharge nozzle containing adjustable air directional vanes with 45° sweep front to back. To prevent unit damage, the air curtain must be installed such that the bottom of the air curtain is not below the door header.
6. Units are direct drive. One external top mounted 2"x4" NEMA enclosure provided above each motor.
7. Electric heater shown with heater component panel on right side, as standard. (Note: This is not the same as the optional remote heater control panel, see note 10) Optional left hand mounting available. Special remote mounted heater component panel available for installations with space limitations. Contact factory for details and minimum installation space requirements.
8. Wall mounted 24 volt thermostat with remote "heat/cool/fan" switch is shipped loose and field installed. Terminal block provided inside control panel.
9. Circuit protection as per NEC by others.
10. Optional remote air curtain unit control panel and door limit switch are field installed and wired by others. The remote air curtain unit control panel is required when a door limit switch is used to automatically turn the air curtain on as door begins to open. Special remote mounted heater component panel (see note 7) is integrated with the optional remote air curtain unit control panel when the two options are selected.

* - Use corresponding letters in "Electrical Data" & "Heater Wattage Data" columns to complete the model numbers.

Features:
- Air Curtain
  - Continuous Duty TEAO Motors
  - Sleek self-contained one piece heavy gauge corrosion proof paint lock metal design
  - Air curtain, excluding coils, shall be Canadian Standards Association Certified (CSA)
  - (4) 5/8” Top and wall mounting holes provided
  - Cabinet has sufficient strength for fastening to wall on both ends without intermediate support
  - Adjustable air directional vanes with 40° sweep front to back
  - Standard color is Titanium Silver
  - Rust preventative electrostatic polyurethane powder coating
  - 12 month parts warranty
  - Freight Not Included (FOB Factory)
  - Proudly Made in the USA

Electric Heater Coil and Wiring
- Electric Heaters are U.L. listed for “Zero Clearance”
- Coils are an open type for rapid temperature rise to be located in the air curtain’s intake directly in the air stream
- Automatic and manual reset thermal overload protection provided
- Airflow pressure switch provided
- Controls internally mounted, prewired ready for power connection and accessible through the intake or top access panels
- A heat/off/fan switch is unit mounted at the bottom and the control voltage is 24 volts
- A wall mounted 24 volt thermostat is included (field wired and installed by others)

Options and Accessories: (see Accessories Brochure)
- Remote air curtain unit control panel
- Remote electric heater component panel
- Adjustable time delay (1 sec to 17 min)
- Remote mounted fused or non-fused disconnects
- Heat on Demand
- Master + Slave Control Kit
- 1/4” Aluminum Mesh Filters
- Custom colors and finishes (304SS, 316SS)

Sound Levels: (measured at 10’ in an open field)
2 Motor Unit = 69 dBA, 3 Motor Unit = 70 dBA & 4 Motor Unit = 72 dBA
