Recommended Accessories

Variable Frequency Drive
Control Panels with Remote Tstat
Door Limit Switches

Notes:
1. This product is designed to meet the National Electric Code (NEC) and is CSA Listed.
2. (4) 5/8" mounting holes provided on overhead mounting provided, (2) on each end.
3. All units have a self contained one piece cabinet, fire retardant and corrosion proof paint lock metal double protected with baked on Titanium Silver color, rust preventative electrostatic polyurethane powder coating.
4. Cabinet is to be mounted from overhead and has sufficient strength for suspension from both ends without intermediate support.
5. Unit is to be installed such that air flow is unobstructed. Unit has a 4.5" air discharge nozzle containing adjustable air directional vanes with 40° sweep from front to back. To prevent unit damage, the air curtain must be installed such that the bottom of the air curtain is not below the door header.
6. Units are direct drive. One external top mounted 2"x4" J-box provided above each motor.
7. Electric heater shown with heater component panel on right side, as standard. (Note: This is not the same as the optional remote air curtain unit control panel, see note 10.) Optional left hand mounting available. Special remote mounted heater component panel available for installations with space limitations. Contact factory for details and minimum installation space requirements.
8. Wall mounted 24 volt thermostat with remote "heat/cool/fan" switch is shipped loose and field installed. Terminal block provided inside control panel.
9. Circuit protection as per NEC by others.
10. Optional remote air curtain unit control panel and door limit switch are field installed and wired by others. The remote air curtain unit control panel is required when a door limit switch is used to automatically turn the air curtain on as door begins to open. Special remote mounted heater component panel (see note 7) is integrated with the optional remote air curtain unit control panel when the two options are selected.

Note: Data above is for 60 Hz, 17% reduction in the performance data with 50 Hz.

Features:
- Air Curtain
  - 10 to 20 HP Heavy Duty TEFC Motors
  - Air curtain has a self-contained cabinet with sufficient strength for fastening from overhead on both ends without intermediate support. Top and rear mounting holes provided (4) 3/4"
  - Adjustable air directional nozzle with 40° sweep front to back
  - Standard color is Titanium Silver
  - Rust preventative electrostatic polyurethane powder coating
  - All units are shipped fully assembled ready for installation
  - 12 month parts warranty
  - Freight Not Included (FOB Factory)
  - Proudly Made in the USA

Electric Heater Coil and Wiring
- Coils are an open type for rapid temperature rise to be located in the air curtain’s intake directly in the air stream.
- Manual reset thermal overload protection provided
- Controls are externally mounted, prewired ready for power connection
- A heat ON/OFF switch is unit mounted on external controls

Options and Accessories: (see Accessories Brochure)
- Remote air curtain unit control panel with remote mounted t’stat
- Remote electric heater component panel
- Custom housing and transition colors and finishes (304SS, 316SS, Aluminum)

Sound Levels: (measured at 10’ in an open field)
10 HP Motor Unit = 75 dBA, 15 HP Motor Unit = 76 dBA, 20 HP Motor Unit = 77 dBA
